

Barnes Manufacturing Services

is now offering a new metal coating option:

Zinc Flame Spray Metalizing (ANSI/ AWS C2.18-93)

is an alternative to galvanizing your products for rust protection.

Advantages to using Zinc Metalizing include:

- Saves turn around time and shipping costs
- Portability: Barnes Manufacturing is able to bring our process to you in the event that your product is too large to ship.
- No size constriction as with dip galvanizing
- Eliminates the need for unsightly drain holes
- Pairs beautifully with our new powder coating process to achieve a flawless finish that is virtually scratch and rust proof.

Call us today to discuss how we can help you!
